

Dataset Summary Report

This report provides a summary of the audio dataset used for the Dysarthria Detection project. It includes dataset statistics such as the number of audio samples, class distribution, and average duration.

Metric	Value
Total Audio Files	2176
Number of Classes	8
Average Duration (sec)	13.82
Samples per Class	
• phonationA	272
• phonationE	272
• phonationI	272
• phonationO	272
• phonationU	272
• rhythmKA	272
• rhythmPA	272
• rhythmTA	272
